

NYULMC Genotyping Core Laboratory Acknowledgment and Authorship

Policies Dear Genotyping Core Laboratory Users:

According to NYU Langone Health policy, it is mandatory that you acknowledge the Genotyping Core Laboratory at NYU Langone in all publications and grant applications if you are using equipment, services, expertise, and data generated at the laboratory. Authorship should be considered when laboratory members are involved in significantly developing the experimental design or contribute to the publication content by advancing it to publishable form. Please send us the PDF file of your publications and let us know if the grant is awarded. This will enable us to demonstrate our involvement in the research of a large number of laboratories at the university, aiding the procurement of future equipment for the laboratory.

Please acknowledge the scientific contributions of this laboratory in any publication resulting from the use of this laboratory. Additionally, all publications resulting from the use of this facility are required to abide by the NIH Public Access Policy and be deposited into *PubMed Central*.

Our laboratory remains committed to do our best to meet your service expectations. If you have any questions, please do not hesitate to contact me.

Sincerely,

Andrea Hines

Please sign to acknowledge that you have read and understand the above policy and return to Andrea Hines at andrea.hines@nyulangone.org

Acknowledgments: We thank the Genotyping Core Laboratory of NYU Langone Health for
