

Rheumatology Fellows

Class of 2025

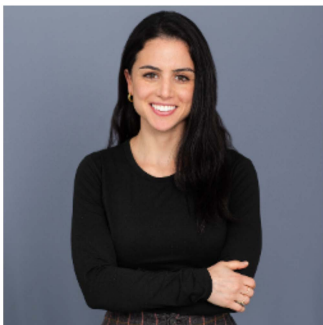

Scott Goldberg, MD

A native of New Jersey, Dr. Goldberg studied modern European history at Brown University and spent several years in public radio at WNYC in New York, including working on their science show RadioLab. He attended medical school at the University of Chicago Pritzker School of Medicine and completed his residency in internal medicine at the University of California at San Francisco. He spent several years as a primary care community health physician in the Bronx at Montefiore Medical Center before joining our fellowship.

Mary Guan, MD

Dr. Guan grew up in Ithaca, New York and Ann Arbor, Michigan, where she was a high school Intel Science Semifinalist. She attended college at MIT in Boston, majoring in biology and completed medical school at the University of Michigan. She spent an extra year during medical school as a Howard Hughes Medical Institute Medical Research Fellow and subsequently spent several years studying chronic hepatitis B patients in China. Prior to fellowship Dr. Guan completed her training in internal medicine at NYU, in our Community Medicine track, followed by a year serving as Chief Resident for the program.

Emily Gutowski, MD

A native of New Jersey, Dr. Gutowski studied Cell Biology and Neuroscience at Rutgers University. While at Rutgers she summered at Cambridge University in England where she studied Neuroscience, Ethics and Philosophy. She attended medical school at Harvard University, where she created a popular medical education podcast and conducted medical research. Prior to fellowship Dr. Gutowski completed her internal medicine training at Mt. Sinai School of Medicine, where she also studied the safety of checkpoint inhibitor cancer therapies in patients with rheumatic diseases.

Rheumatology Fellows

Class of 2025

Joshua Novack, MD

A native of Westchester, Dr. Novack studied Molecular and Cell Biology as an undergraduate at Johns Hopkins, where his studies on connective tissue earned him the the Johns Hopkins University Provost Undergraduate Research Award. He attended medical school at NYU where he conducted research on lipid metabolism in mice, as well as solute transport in the kidney. Dr. Novack stayed at NYU for his internal medicine residency and studied bone microarchitecture in lupus patients before joining our fellowship.

Rheumatology Fellows

Class of 2024

Abhimanyu Amarnani, MD, PhD

Dr. Amarnani, who is originally from Los Angeles, received his bachelor's degree from the University of California, Los Angeles. After coming east to attend medical school at SUNY Downstate College of Medicine in Brooklyn, he returned to Los Angeles for residency at the University of Southern California. Dr. Amarnani then transferred to NYU on the research pathway. His research has focused on lupus nephritis proteomics and B-cell transcription factor biology.

Catherine Howe, MD

Dr. Howe was born in New York City and raised in the suburbs with her three younger siblings. She studied neuroscience as an undergraduate at Fordham University, spending her summers doing research in electrophysiology at Albert Einstein School of Medicine and cell biology at Fordham. A graduate of Tufts School of Medicine, she attended Duke University for her residency and completed research in health literacy and telehealth utility.

Nicole Leung, MD

Dr. Leung was born and raised in New York City and attended Stuyvesant High School. She graduated from Duke University and remained there for medical school where she developed an interest in autoimmune connective tissue diseases and investigated systemic sclerosis. Dr. Leung returned to New York for residency training at NYU. As a resident she received a grant from the Rheumatology Research Foundation to conduct research in gout and complete coursework in clinical research design, biostatistics, and bioinformatics.

Rheumatology Fellow

Cristina Sorrento, MD

Dr. Sorrento is originally from Long Island and studied biochemistry as an undergraduate at Columbia University. Following graduation, she remained at Columbia for one year to perform research in chemistry and participate in chemistry education. She attended SUNY Downstate College of Medicine, where she was elected president of the downstate chapter of the Alpha Omega Alpha Honor Society. Dr. Sorrento went on to residency at Beth Israel Deaconess Medical Center in Boston. Her research interests include rheumatoid arthritis and cardiovascular disease, as well as osteoarthritis and frailty in the geriatric population.
