Aug	Final Presentations	
	Program Retreat	

- *Research in Progress:* AIP trainees each have 45 minutes to present their work in progress for feedback
- *Program Check-In:* In these informal discussions, we check in on trainees' progress and discuss challenges as they arise. These sessions are opportunities to problem-solve research, mentor or curricular challenges, and help trainees maintain momentum in their projects
- *Career Crafting:* Discussions about skills including defining goals and IDP, promotion and tenure expectations, job searching, writing cover letters and personal statements, networking, giving job talks, and negotiating and navigating offers.
- *Thematic Discussions:* These sessions will target clinical, scientific, and academic themes as determined with the trainees based on their learning needs.
