Endocrine Surgery Fellowship

Joy Done, MD

Current Fellow, graduating 07/2026

Hometown: Cupertino, CA
Medical school: Warren Alpert Medical School of Brown University
Residency program: Johns Hopkins Hospital
Areas of interest: secondary hyperparathyroidism, perioperative optimization, risk factors in papillary thyroid cancer, clinical outcomes research
Hobbies: Hot yoga/pilates, discovering new places to eat, traveling abroad
Why I chose NYU Langone: For the access to cutting edge research, world renowned clinical expertise, fantastic mentorship, and the energetic training culture! .

Rajam Raghunathan, MD, DPhil

Alumni, graduated 07/2024

Post fellowship job placement: Hawaii Pacific Health - Wilcox Medical Centre
Hometown: Ottawa, Canada
Medical school: McGill University
Residency program: University of Toronto/University of Ottawa
Areas of interest: Endocrine surgery, surgical ethics, surgical decision-making, philosophy of medicine
Hobbies: Reading, running, hiking, gardening, cooking, drawing
Why I chose NYU Langone: NYU Langone is entirely focused on providing excellent patient care, while simultaneously working to advance the limits of knowledge that drive that care. We have great surgeons who are amazing mentors, innovators and preceptors. We also see a high-volume of complex cases, both medically and surgically, in an incredibly diverse population. Together, these elements combine to create an ideal environment to learn as much as possible and to provide the best care possible.

Marin Kheng, MD

Upcoming Fellow, starting 08/2026

Hometown: Jakarta, Indonesia and Los Angeles, California
Medical school: University of Pittsburgh
Residency program: Rutgers Robert Wood Johnson Medical School
Areas of interest: Thyroid cancer outcomes, health services research in endocrine surgery, surgical volume–outcome relationships, financial literacy education for surgical trainees
Hobbies: Surfing, traveling, personal investing, cultivating rare succulents and cacti
Why I chose NYU Langone: I chose NYULH for its excellence across multiple domains. The fellowship provides the opportunity to learn from exceptional mentors and leaders in endocrine surgery. It also offers unparalleled exposure to a high volume of complex cases across the full spectrum of endocrine disease as well as innovative research, expertise in emerging treatment modalities, and a dynamic academic culture.

Max Schumm, MD

Alumni, graduated 07/2025

Post fellowship job placement: UT Southwestern
Hometown: San Francisco, California
Medical school: Medical College of Wisconsin
Residency program: UCLA
Areas of interest: Optimization of treatment for thyroid cancer and adrenal nodules, molecular testing, surgical decision-making, surgical education
Hobbies: Workout classes, golf, traveling, trying new restaurants (and wine), house plants
Why I chose NYU Langone: I chose NYULH because of its excellent academic program and academic culture, the opportunity to train at a high-volume endocrine surgery program with leaders in the field, the diverse clinical and research opportunities across different settings and patient populations, the opportunities to further my research interests in molecular testing, and of course, the opportunity to live in and experience New York City
