CLINICAL STUDIES AND FUNDING

1. Department of Veterans Affairs Cooperative Studies Program Study #359
A clinical trial comparing the safety and efficacy of alpha blockade and androgen suppression for the treatment of benign prostatic hyperplasia.
1/1/91 through 12/31/95
Principal Investigator, VA Hospital, Wood, WI.
2. NIH R01 DK 45778: Prostatic morphometry insights into treatment of BPH.
10/01/92 through 09/30/97
Co-investigator.
3. NIH V01 DK 46416: Medical therapy of BPH
10/01/92 through 05/30/95
Co-investigator.
4. Advanced Surgical Intervention - "A Double-Blind Comparative Study of Cystoscopy vs. Transurethral Dilatation of the Prostate for the Treatment of Benign Prostatic Hyperplasia (BPH)", 1991 Co-investigator.
5. BERLEX - "A Double-Blind Randomized Placebo-Controlled Dose Ranging Study of Atamestane to Evaluate the Efficacy, Safety and Endocrinological Effects in Symptomatic Patients with BPH", 1991
Co-investigator.
6. C.R. BARD - "A Double-Blind, Randomized Comparative Study of Laser Prostatotomy Using a Right Angle Laser Delivery System to Transurethral Resection of the Prostate", 1991
Co-investigator.
7. STERLING - "A Phase II Dose Ranging Efficacy Study of Oral Zanolone -A New Steroidal Androgen Receptor Antagonist in Men with Symptomatic BPH", 1991
Co-investigator
8. Surgical Laser Technologies Study - "A Double-Blind, Randomize Comparative Study of Contact Laser Ablation to Transurethral Resection of the Prostate", 1993
Co-investigator

PRESENTATIONS AND INVITED LECTURES
