An Analysis of the Course of Psychoanalysis: For One Theory, Many Treatments

Leo Rangell, MD

Honorary President, International Psychoanalytical Association

Moderator: Theodore J. Jacobs, MD

Educational Objective: The aim of this presentation is to acquaint the audience with the two different pathways that psychoanalytic theory has taken and the parallel development of alternative theoretical systems. The theoretical fragmentation that has resulted from this pluralism is described and a case made for the need for a unitary, composite theory of psychoanalysis.

This session is open to psychoanalysts, psychiatrists, psychologists, social workers, and other mental health professionals.

Program Committee Co-Chairs: Marina Mirkin, MD and Marvin A. Nierenberg, MD
