

Human Research Protections Embryonic Stem Cell Research Oversight Committee

1 Park Avenue | 6th Floor | New York, NY 10016 HRP document version date: 02.24.2023

Embryonic Stem Cell Research Oversight Committee (ESCRO) Continuation/Closure Form

If you are submitting for continuation/closure of a study with ESCRO approval, complete this form and submit to ESCRO@nyulangone.org. This form documents information required to ensure research is performed in accordance with the NYU Langone Human Research Protections Policy and Procedure Manual, available on the Human Research Protections (HRP) website.

1. In	vestigator Information NOTE: Attach bio sketch for all listed personnel						
Principal Investigator (PI):				Phone:			
Department / Division:				Email:			
Pl's Administrative Contact: Department / Division:				Phone:			
Depart	men	t / Divi	sion:	Email:			
Co-In	vest	tigato	or:	Phone:	NYU Faculty/Employee		
				Email:	Non-NYU Faculty/Employee		
Co-In	vest	tigato	or:	Phone:	NYU Faculty/Employee		
				Email:	Non-NYU Faculty/Employee		
Co-Investigator:			or:	Phone: Email:	NYU Faculty/Employee Non-NYU Faculty/Employee		
2. Study Information					I Nor-N To Taculty/Employee		
Study Title:							
Very I	orie	f des	cription of study NOTE: Limit description to 2 or 3 sentences				
Please a	Please also include the study protocol with this application, and also indicate the embryonic research section, if part of a larger study.						
3. C	ate	gory	of Research				
			categories of research do not require registration with the ES	CRO Committee:			
			Human Stem Cells				
1			an cord blood; tion of Stem Cells as part of a recognized and accepted medical treatment	for a disease or condition			
			n and ex vivo passage of induced pluripotent stem cells (iPSC)	or a disease or container.			
Choo	Choose the categories below that best describes your research:						
uo	1.		NIH-Registered Cell Lines: In vitro research using hESC lines that are	re listed on the NIH hESC Registry: http://stemce	lls.nih.gov/research/registry/		
Require ESCRO Committee Registration	2.		ESCRO pre-approved Cell Lines : <i>In vitro</i> research using hESC lines or iPSC lines that have been pre-approved for such use by the ESCRO Committee.				
	3.		De-Identified IRB Approved Cell Lines : <i>In vitro</i> research using Human Stem Cells that have been obtained using an IRB approved process and the cell lines have been de-identified such that the identity will never be released to the Investigator.				
Requ	4.		Human Transplant: Research involving transplantation of Human Stem Cells or cells derived from Human Stem Cells into human subjects.				
- E	5.		Other: Other types of Human Stem Cell Research that the Vice Dean for Science (or her designee) has made a written determination, after due consideration of the likely risks and benefits of such research, that such categories are permissible without the additional review of the ESCRO Committee.				
	1.		New hESC Cell Line: Creation of a new hESC line by any means, incl furnished by an <i>in vitro</i> fertilization clinic or other lawful source.	uding through use of SCNT, human zygotes, spir	ndle transfer, or a human embryo		
ew	2.		Donor Payment : Payment to a donor solely for the purpose of creating	a human embryo to be used in hESC research.			
Review	3.		Donor Identifiers: Research in which personally identifiable information which the hESCs or iPSCs were derived is readily ascertainable or might I		metes, or somatic cells from		
nittee	4.		Ineligible hESC Lines: Research using NIH Ineligible hESC lines that	have not been pre-approved for such use by the	ESCRO Committee.		
, omi	5.		Neural or Gametic Cell Lines: iPSC Research which includes experi	ments designed or expected to yield neural or ga	metic cells and tissues.		
SRO C	6.		Mixing Cells & Embryos: Mixing human totipotent stem cells or iPSC allowed to progress for more than 14 days of development in vitro, or past				
I ESC	7.		Implantation: Clinical research in which cells of human totipotent stem	cells or iPSCs are transplanted into living human	subjects.		
e Ful	8.		Culturing Human Embryo: In vitro culture of intact human embryo.				
Require Full ESCRO Committee	9.		Chimeric human cells: Research that generates animal chimeras usi stem Cells or iPSCs into animals other than humans or primates at any sta				
	10.	. 🗆	Non-human Primates: Research that involves the introduction of hES	Cs into non-human primates at any stage of fetal	or postnatal development.		
	11.	. 🗆	Other: Other types of Human Stem Cell Research. Describe:				

a	Allitual Progress Report
	Is this a continuation of the study or closure of the study? Continuation
b.	Provide a detailed explanation of study progress within the past 12 months (include if any cell lines have been generated:
_	Have there been any modification to your approved research protocol within the past twelve months?
	Yes, and they have been reviewed by the ESCRO committee
	Yes, but they have not been submitted by the ESCRO committee
	l No
	ou checked the second box, please submit an application for modification to the ESCRO committee.
d.	Have any events occurred during the approval period that may change the original review category? If so, explain:
e.	If human subjects are involved, please complete enrollment detail information below:
	Subjects have been enrolled since the study began
	Enrollment of subjects anticipated during the next approval period
	The research is permanently closed to the enrollment of new subjects; all subjects have completed all research-related
	erventions; and, the research remains active only for long-term follow up of subjects
	No subjects have been enrolled, at any time, and no additional risks have been identified
	The remaining research activities are limited to data analysis only of identifiable/coded data
f.	If additional cell lines have been produced, please provide an explanation as to why below:
٠.	il additional cell lines have been produced, please provide all explanation as to willy below.
g.	If cell lines have been shared with others outside of NYU Langone Health, please explain below:
h.	If storage or lab locations have changed, please describe below and explain why:
h.	If storage or lab locations have changed, please describe below and explain why:
h.	If storage or lab locations have changed, please describe below and explain why:

Embryonic Stem Cell Research Oversight Committee | Continuation/Closure Form

I will respond promptly to all requests for information or materials solicited by the NYU Langone Health ESCRO Committee.
 I will maintain adequate, current, and accurate records of research data, outcomes, and adverse events (if applicable) to permit an ongoing assessment of this research project.
 I have read and understood all of the questions in this application and that all of the foregoing information and statements submitted in this application and its attachments and supporting documents are true and correct to the best of my knowledge and that all responses to the questions are full and complete, omitting no material information.
