NYU Langone Immune Monitoring Laboratory Acknowledgment and Authorship Policies

Dear Immune Monitoring Laboratory Users:

According to the NYU Langone policy, it is mandatory that you acknowledge the Immune Monitoring Laboratory at New York University Langone Health in all publications and grant applications if you are using equipment, services, expertise and data generated at the Immune Monitoring Laboratory. Authorship should be considered when core laboratory members are involved in significantly developing the experimental design or contribute to the publication content by advancing it to publishable form. Please share your draft manuscript for review prior to submission, and send us a PDF of your publication. This will enable us to demonstrate our involvement in the research of a large number of laboratories at the university, aiding the procurement of future equipment for the core laboratory.

The NYU Langone Laura and Isaac Perlmutter Cancer Center support grant partially funds this laboratory. Please acknowledge this grant, P30CA016087, in any publication resulting from the use of this core laboratory.

Our laboratory remains committed to do our best to meet your service expectations. If you have any questions, please do not hesitate to contact me.

Sincerely,

Sara Borghi, PhD
Director, Immune Monitoring Laboratory
