

Christina Kaul, MD

HIV Equity Fellow

Dr. Kaul is an internal medicine and infectious diseases physician. She graduated magna cum laude with a BA in chemistry from Dartmouth College in 2012. She then received an MD from Baylor College of Medicine in 2016. She completed her internal medicine residency at the Donald and Barbara Zucker School of Medicine at Hofstra/Northwell in Hempstead, New York. After completing residency, Dr. Kaul went on to complete a Physician Administrative Fellowship at Northwell Health. She then joined NYU Grossman School of Medicine as an infectious diseases fellow and completed her clinical training in June 2022. She obtained her MS in clinical investigation with a concentration in health disparities and health equity research from NYU Grossman School of Medicine. Her research interests lie at the intersection of population health, healthcare epidemiology, and health disparities. She served as the inaugural HIV Equity Research Fellow at NYC Health + Hospitals for the 2022–23 academic year. For the 2023–24 academic year, Dr. Kaul will serve as an instructor and attending physician in the Division of Infectious Diseases and Immunology at NYU Grossman School of Medicine and will continue on as a second-year Population Health Science Scholar.

Farhan Mohsin, MPH

HIV Equity Fellow

Farhan graduated with his MPH in epidemiology from NYU School of Global Public Health in 2022. He currently works at NYU Langone's Institute for Excellence in Health Equity, where he embraces a community-based participatory research (CBPR) approach to tackle the complexities of health disparities. Notably, his contributions extend to publishing in various journals and presenting at conferences nationwide on diverse public health subjects including implementation science and mental health as well as chronic and infectious diseases. Farhan also serves as a board member for the NYU GPH Alumni Board where he works to represent the interests of the students and alumni.

Jason Felder, MPH

HIV Equity Research Coordinator

Jason Felder is the Research Coordinator in the Infectious Disease Department at NYU Bellevue. Jason graduated from CUNY School of Public Health with a Master's in Health Policy and Management, where he advocated for policies that would improve the lives of the LGBTQ+ community and delivery of healthcare for HIV+ incarcerated people in NYS. While in graduate school, he worked with GMHC's (Gay Men's Health Crisis) Policy and Communications department on promoting Mpox vaccinations during the latest outbreak. Jason completed his BS in Healthcare Administration and Management while interning with New York's Department of Health on social media outreach for Hepatitis B awareness.

Ellie Goldfarb, BA

HIV Equity Intern

Ellie is currently a first year MPH candidate at the NYU School of Global Health. She graduated from the University of Minnesota, Twin Cities in 2020 with a BA in Political Science. Ellie's professional background includes clinical experience in both reproductive and sexual healthcare, with an emphasis in LGBTQ+ affirming care. After completion of her graduate degree, Ellie hopes to continue the pursuit of community-based strategies for the implementation of sustainable preventative healthcare for LGBTQ+ identifying individuals.
